

We are sending you a table with prices received by hotel companies of LAGUNA Novigrad, related to the World Bowling Championship, which will be in May 2016 in Novigrad.

Current prices for hotel accommodation are related to the type of services: from the over- nights, bed and breakfast, half board, and full board and can be made directly with the hotel with a reference to World Cup Novigrad 2016. At a moment we are developing websites related to accommodation and additional services (visits, etc.), for which we will soon provide a link that you can set on your website.

It is especially important to note that this offer of accommodation has a discount for early booking (until 15 December 2015) of 5 euros per person for any type of services.

Everything offered is valid for accommodation within the hotel company LAGUNA, which has plenty of rooms and has all the hotel capacities in Novigrad and private accommodation. Hotel services in other cities are not covered by the offer of HKS, so potential needs will have to do booking by themselves.

Best regards,

general secretary  
Boris Mezak
